The Stanford Artificial Intelligence Laboratory is opening its lab doors with a new summer program aimed at rising 10th grade girls. AI Summer Outreach aims to expose students in underrepresented populations to the field of Artificial Intelligence (AI). The program will cover a variety of topics, discuss cutting-edge research, and explore the social impact of AI. Be a part of the amazing opportunity!

Program
★ August 3 – 14 / Monday – Friday / 8am – 5pm @ Gates Computer Science Building
★ Targeting rising 10th grade girls with the goal of increasing the number of women in technology fields
★ Daily lectures by Stanford AI professors
★ Hands on introductions to the AI Lab
★ Social events and mentoring sessions

Eligibility
★ Students who will be in 10th grade in Fall 2015
❑ Strong interest/ability in math and sciences
❑ Demonstrated leadership potential

Application
❑ Deadline is April 22, 2015
❑ Applications received after deadline will be considered if space is available
