

# Systems Track Proposal

---

## Notes:

- Combination of track requirements and electives should total 25 units
- Aim for track that is 13-14 units (roughly 4 courses)
- This leaves 11-12 units (3 to 4 courses) for electives
- Senior project requirement is not considered part of the track

## Proposed Systems Track Requirements:

All required track classes must be taken for at least 3 units each (if the class provides the option to take it for variable units).

- a) CS140
- b) One of: CS143 or EE108B
- c) Any two additional courses from category (b) or from the following: CS144, CS145, CS155, CS240, CS240C, CS240D, CS242, CS243, CS244, CS245, EE271, EE282

## Systems Track Additional Electives:

Students in the Systems track may, in addition to the standard set of approved CS elective courses and category (c) above, also count classes from the following set as elective courses:

CS240E, CS240X, CS244C, CS244E, CS315A, CS315B, CS343, CS344, CS344E, CS345, CS346, CS347, CS349\*, CS448, EE382A, EE382C, EE384A, EE384B, EE384C, EE384S, EE384X, EE384Y
