

Unspecialized Track Proposal

Notes:

- Combination of track requirements and electives should total 25 units
- Aim for track that is 13-14 units (roughly 4 courses)
- This leaves 11-12 units (3 to 4 courses) for electives
- Senior project requirement is not considered part of the track

Proposed Generalist Track Requirements:

All required track classes must be taken for at least 3 units each (if the class provides the option to take it for variable units).

- a) CS154
- b) Any one of: CS140, CS143
- c) One additional class from category (b) or from the following: EE108B, CS144, CS155, CS240D, CS242, CS244
- d) Any one of: CS121 or CS221, CS223A, CS223B, CS228, CS229
- e) Any one of: CS145, CS147, CS148 or CS248, CS262

Note: courses taken as Math electives cannot also count toward satisfying CS electives, and vice versa.
